

PROJECT SCHOOL SUPPLIES 2015

Last week 1,215 students received the supplies they need to kick off the school year and we are still helping more this week!

One of our dedicated volunteers said, "As a teacher, I can't tell you how important it is that the kids are on the same playing field as their peers. These school supplies make a difference."

We think YOU make the difference. We extend a big THANK YOU to all of those who donate supplies, time, and dollars to make this ministry possible. Help us break the cycle of poverty by investing in a child's education today!
